

# **The Mechanics of Changing the World**

**Political Architecture  
to Roll Back State &  
Corporate Power**

JOHN MACGREGOR

*Worldwork Press*

# Contents

## **Preface**

## **Introduction**

Constitutional obduracy

Interlocking reforms

### **1. Why democracy was invented**

Human egalitarianism

The long march

Athens

The long sleep

Scattered reappearance of democratic practices

Why democracy was reinvented (the second draft)

The two thousand-year counter-revolution

### **2. The upstream principle**

A problem has a family tree

The war on terror

Downstream

Immediate costs

Root causes

Coda

The Global Financial Crisis

The COVID pandemic

1. Incentives for vaccine-makers
2. Incentives for clinical trial researchers
3. Incentives for contract research organizations (CROs)
4. Incentives for the trial committees
5. Incentives for medical journals
6. Incentives for the editors of medical journals
7. Incentives for regulatory bodies
8. Incentives for those working in the biomedical research agencies
9. Incentives for politicians
10. Incentives in the vaccine injury reporting process
11. Incentives for media
12. Incentives for social media companies
13. Incentives for doctors

14. Incentives for patient advocacy groups, non-profits,  
professional associations, government health services  
End-to-end containment  
Leaving the real world: the replication crisis  
Throwing away our advantages  
The spending cascade  
Eternal protest  
Grapes from brambles

### **3. Decontamination**

Ariadne's thread  
An inter-tribal issue  
A feedback loop  
The plutocratic armory  
Political contributions  
Corruption v. contamination  
The revolving door  
Think tanks  
Astroturfing  
Corporate funding of education  
The 'Googlefication' of schools

#### Remedies

Remedies: Political contributions  
The FTT  
Remedies: The revolving door  
Remedies: Lobbying  
Remedies: Think tanks  
Remedies: Astroturfing  
Remedies: Corporate funding of education  
Remedies: International bodies  
Remedies: Foreign influence  
Remedies: Unions  
Remedies: Political parties  
Remedies: Non-profits  
Divorcing wealth from power

### **4. Isegoria**

Speech in the first democracy  
Speech today  
Does the media shape our thinking?  
The blind sector  
Russia's invasion of Ukraine  
The night the world did not end

## Remedies

The principle of breaking up monopolies

Remedies: the 'horizontal' dimension

Remedies: the 'vertical' dimension

Remedies: size

Social media acquisitions and mergers

Mechanics of decapping

The social media levy

Democratizing information

Democracy's in-breath

## **5. Renovating the democratic machinery**

Consensual government

Mutable democracy

'Sturdy' and 'hairy' reforms

Demotic institutions

The machinery of third draft democracy

### 1. Deliberative democracy

Athens

Deliberative democracy in the modern world

Potential uses under third draft democracy

Constitutional

Bill of Change assemblies

Legislation, regulation, administration, oversight

Shaping emerging technologies

Biomed

Lethal autonomous weapons systems

Bureaucratization

Economic policy

Growth

The war on the banes

Censorship

Organized crime

Chronic illness

The climate schism

Biosecurity

The international tier

Reform of international institutions

Stasis

### 2. Parliamentarism

### 3. Proportional representation (PR)

Preferential voting

### 4. Direct democracy

The Swiss

An antidote to democratic decline

Is there public support for direct democracy?

How direct democracy could be used

5. Abolishing the dismal art

(i) Universal Vote By Mail (UVBM)

Why not online voting?

(ii) Automatic Voter Registration (AVR)

Reforms that UVBM and AVR make redundant

(iii) Further reforms of the dismal art

Felon disenfranchisement

Gerrymandering

Merging voter rolls

Cyber vote-shifting

(iv) Omnibus approaches to the dismal art

6. Subsidiarity

7. The amendment amendment

Mechanics

Transparency and whistleblower protection

How much power should each institution have?

Awakening the democratic instinct

**6. Teaching the democratic arts**

The two-way street

The worship of jackals by jackasses

‘A mode of associated living’

What to teach

1. History of democracy

2. Information literacy

Kaleidoscopy

3. Activism

4. System design

5. Democratic capture

6. Defragging

(a) Listening

Mindfulness

(b) Scientific method

Statistics

(c) Critical thinking and logic

(d) Cognitive bias

(e) Inoculation against conspiracy theories

(f) Null Corner Analysis

(g) Projection

- (h) Reverse debates
- (i) Learned optimism
- (j) Travel
- (k) Virtue
- (l) Civility

How to teach

Actual space

Finland

Who to teach

Foreign students

The hidden superpower

## **7. The invisible consensus**

Why do we have political differences?

How meaningful are 'left' and 'right'?

How real is our famous polarization?

*Divide et impera*

Common ground

## **8. The Bill of Change**

The scheme so far

The deliberation stage

The referendum

Management of the referendum

Dealing with anti-democratic roadblocks

The Democracy Commission

Cost savings from the Bill of Change

How much time will third draft democracy cost us?

Homeostasis

## **9. Strategy**

Society is ready for wholesale change

1. Democracy naturally expands
2. Democracy is probably not in an historic reversal
3. Practical necessity
4. In polarized times, comprehensive change offers stability
5. People want an end to extremism
6. Third draft democracy is proactive, concrete and simple
  - Proactive
  - Concrete
  - Simple
7. Radical change is occurring anyway
8. Crises yield reform

9. Public opinion is behind change

10. The elements of third draft democracy have public support

Article I: Decontamination

Article II: Isegoria

Article III: Renovating the democratic machinery

Article IV: Teaching the democratic arts

Overall

11. Plutocratic confidence is waning

The campaign

Work on all political tiers

Local

State

National

International

Bringing the third draft to a non-democracy

Leaders

Numbers

Collaboration

Planning

Symbols

Keep the reforms focused

Don't expand government power

Non-violence

Keep political parties armslength

Expect major opposition

Use the next crisis

Escalating entrenchment

Interim constitution option

Bedding down a post-Bill society

Preventing capture

Harvesting talent

Possible trajectories

The sharpest weapon

## **10. Striking at the root**

Inferior binaries

Fateful complexity

Choosing the right kind of change

Third draft efficiency

Article I (Decontamination)

Article II (Isegoria)

Article III (Renovating the democratic machinery)

Article IV (The democratic arts)

Syzygy  
The path to X  
Giant-killing
